

### Details of summer school

- Summer school dates: **Monday June 21 – Saturday July 24**
- Class times: daily 7:15 a.m. to 12:15 p.m. (a total of 150 hours spent in the classroom during the summer term)
- Cost: \$3400.00 plus expense account and allowance, for a total of \$3900.00  
New students will also incur a \$300.00 uniform fee.
- Courses available: Almost all core courses are taught during summer school
- Amount of Coursework available: Students can take **one new course/two new semesters** (150 hours in class) or **repeat two courses/four semesters** (75 hours in class for each repeated course). An additional option is to repeat 4 semesters in 4 different subjects.
- Tutoring:** For students who **need more than one new class or two repeat classes**, we offer “tutoring” in the afternoons. This term simply refers to small classes with a 1:3 teacher-student ratio or less. Those students needing tutoring will miss afternoon recreation and return to the school building after lunch to complete their coursework. There is a **separate fee** for tutoring of \$900.00 for a new class or \$450.00 for a new semester; and \$450.00 to repeat a class or \$225.00 to repeat a semester.

### Why take summer courses?

- Repeat courses to achieve credits needed for graduation
- Repeat courses to improve your GPA and therefore your college possibilities
- Take a new core course to lighten a heavy academic load during the school year
- Take a new course to get ahead in a subject area

### What are the advantages of summer school at Oak Hill Academy?

- You can repeat semesters of courses if needed instead of repeating a whole year
- OHA’s policy for repeating courses is a Grade Replacement. This means that when you repeat a course, only the second grade is calculated in your GPA (the first course still shows on your transcript but is not used in the GPA calculation).
- It lasts only 5 weeks in the middle of the summer, allowing plenty of vacation time both before and after summer school.
- There is study hall time each night and daily accountability for school work.
- In the afternoons students go on excursions – hiking, canoeing, swimming, etc.
- If you are an incoming student summer school provides an excellent opportunity to adjust to your new environment
